Dear Hiring Manager,

I am a highly motivated and progress-focused person with excellent working knowledge in Microsoft excel and customer interaction. During co ops I worked extensively with many customers including in person and on phone to sort various issues like sales and data processing so I think my skills will easily translate into this position

In my resume, as well as the page below, I have taken the time to highlight some of my specific skills that have prepared me to be a strong contributor to your team in this position.

Solidworks, Catia, OnShape, Fusion360

Ability to model parts with complex geometry, assemble constraints and kinematic joints, kinematic animations to simulate motion of mechanisms, and analyze collision.

Electrical Experience

Assembled and tested **wiring assembly** during internship at Tenneco. Experience with soldering protoboards for **Arduino** projects.

Data Analysis

Expert in data analysis with over **two years of experience** using a verity of data and automating them. Have experience in manufacturing setting.

Hands on experience

Built fixtures and other assemblies using custom and off the self-parts. **Familiar with a verity of hand and power tools;** dermal, drill press, band saw, impact driver, grinder, and more.

Software Knowledge

Skilled in **HTML, JavaScript, CSS, Python**, able to apply programming skills effectively (Experience using **HTML, JavaScript, CSS, Python** for various **websites and projects**)

Finally, I am thrilled at the prospect of joining such a spectacular organization. I would be grateful for the chance to communicate more in person. Thank you very much for reviewing my application and I look forward to further communication.

Sincerely,

Jeffry Hopur
